I. DISCUSSION RE: Concept Review of Dundee Commons Planned Unit Development, 430 West Dundee Road

Community Development Director Jennings explained that the Dundee Commons development was previously in front of the Board last July. Since that time the development team has been working to acquire the necessary land, which has been difficult due to issues with the property ownership. Because of that, they have revised their plan to remove the proposed townhome concept and continue to pursue that separately from the retail concept. At this time they are pursuing only the retail portion of the development on land which they do have control over. They are requesting a revised concept review so that they can move on with preliminary Planned Unit Development approval.

Petitioner Bill Hein presented the revised concept plan to the Board and indicated that they will be seeking TIF assistance for the property. This will be a phased development comprising a total of 5.5 acres. The first phase is a commercial building on Dundee Road which will supply services to the area. The current plan moves the building further towards Northgate Parkway to accommodate onsite flood detention. Mr. Hein stated that he believes everything is within Village Code and there is sufficient parking. In the future they would like to place a road on the north side of the property that would connect with Community Boulevard to alleviate traffic congestion.

Trustee Brady expressed concern that the drawings appeared to show block construction, which he did not want to see. He also felt a three lane entrance would be best and an entrance onto Northgate Parkway would be necessary.

Trustee Papantos expressed concerns with the floodplain and floodway. She inquired if there is a plan to place a road over the floodway.

Mr. Hein answered that it is a possibility, but they are looking at all the options.

Village Engineer Tack indicated that he has faith in the petitioner’s engineer and that there are ways to construct a road in a floodway.

Trustee Lang stated that the plans included in the packet were confusing. He wanted to be sure that there would be more than one entrance into the development. Mr. Hein indicated that there will be an entrance onto Northgate Parkway, but the exact location is not yet determined.

President Argiris stated he would like to see this done right at one time and asked the petitioner to look at the whole development including all of the phases. He asked for a consensus to place retail at this site.

Yes: Trustees Brady, Vogel, Vito, Papantos, Krueger, Lang, & President Argiris

The Board was in favor of moving forward with the complete project and two entrances.

J. PRESENTATION RE: Enforcement of Municipal Code Requirements Regarding Home-Based Businesses
Manager Sfondilis gave a brief update to the Board on home-based businesses that are being brought into compliance with Village Code. He reminded residents with home-based businesses that they have until September 1 to reach out to the Village to come into compliance.

No: Trustees Brady, Vogel, Vito
Yes: Trustees Papantos, Krueger, Lang

Trustee Vito was in favor of amending the code for home-based businesses, possibly to allow for more uses based on property acreage.

Trustee Brady felt the code could be amended for home-based businesses, but wanted to make sure property maintenance issues such as outdoor storage were addressed.

Trustee Vogel expressed frustration at the difficulty of citing home-based businesses throughout the Village.

Trustees Krueger, Lang, and Papantos expressed concerns about the code being enforced fairly throughout the Village and the implications of allowing home-based businesses only in certain areas.
