Wheeling, IL

September/October 2007

- ~Village offices will be closed Monday September 3rd in observance of Labor Day & Monday October 8th in observance of Columbus Day.
- ~All regular Waste Management pick-ups will be delayed by one day due to the Labor Day Holiday.
- ~The water ban is effectively over as of September 15th.

Village and Park District Celebrate Land Swap

Village Manager J. Mark Rooney announced that the Village of Wheeling and the Wheeling Park District have approved a land swap enabling the Village to move forward with its plans to construct a new village hall.

After lengthy negotiations, the Park District will receive approximately eight acres of land to the south of the current village hall, including the former public works/engineering facility which will be demolished. The Village will receive approximately six acres to the west of its current facility.

“We see the land swap as a win-win situation giving the Village a prime location on Dundee Road and supplying the Park District with eight valuable acres of open space that can be utilized for soccer fields and other recreational uses for our collective tax payers and residents,” Rooney said. “We are pleased that we were able to complete a deal that benefits both taxing bodies and the citizens of Wheeling and excited that the deal was formally approved at tonight’s Board meeting.”

For the past 12 months the Village has been working with Sente, Rubel, Bosman, Lee Architects and Olsen Construction on the design and construction plans for the new municipal building. According to Village officials, construction can still begin within the original timeline established by the Village Board.

Left to right Bill Maloney, St. Joseph the Worker Church, Village President Judy Abruscato, Village Manager J. Mark Rooney, Park District Executive Director Jan Buchs and Park District President Tom Webber celebrate the approval of the land swap that will create a new Village campus.

“When completed we will have a unique Village and Park District campus that will not only be the envy of our neighbors but the entire suburbs of Chicago,” Rooney added.

“This land exchange is a win-win for the community of Wheeling,” said Wheeling Park District President Tom Webber. “It is an exciting moment when two entities can work for the common good and provide for the needs of the community through an effective partnership.”

Construction is scheduled to be complete by spring 2009.

News You Can Use

With the onset of the fall season, the Department of Public Works reminds residents that Village Ordinance 3884 § A (part), 2004) prohibits the deposit of leaves into streets and gutters. Leaves intentionally raked into streets and gutters impede the flow of rain water into the Village's storm sewer system. The Village's contract with Waste Management provides for alternative methods by which residents may dispose of leaves and other forms of landscape waste. In addition to paper landscape waste bags, residents may use plastic or metal refuse cans – the latter, of course, being emptied and returned to the resident for future use. Instead of the ongoing expense related to the purchase of paper landscape waste bags, residents may wish to make a one-time investment into one or more plastic and/or metal refuse cans for this use. Wheeling is one of only a few communities where such a disposal method is available. In addition, the Village has eliminated the requirement of residents to purchase "stickers" for each bag/can of landscape waste disposed. Again, the intention of the Village was to provide a leaf disposal program offering the greatest ease and least amount of inconvenience to its residents.

Firefighter/Paramedic Career Opportunity

Looking for a career helping others within the community? A career that is physically and mentally challenging, where no work day is ever the same and is always full of surprises? A career with excellent pay and benefits where you are part of an elite team sworn to protect the community? Then perhaps a career as a Firefighter/Paramedic with the Wheeling Fire Department is for you!

A written examination to create an eligibility list will be held on Saturday, October 20, 2007. The eligibility list is good for two years and future Firefighter/Paramedics will be drawn from this list as vacancies occur within the Fire Department. Individuals who are interested in taking the examination must be over 21 years of age, a citizen of the United States, in good physical health, and possess no criminal record. The Village of Wheeling is an equal opportunity employer, as well as a drug-free work environment.

Perspective candidates must pre-register for the written examination and obtain a mandatory candidate packet starting Monday, September 17, 2007 (excluding Monday, October 8, 2007 - Columbus Day), and ending Friday, October 12, 2007 at the Wheeling Fire Department Administration Offices, 255 W. Dundee Road. Pre-registration and obtainment of the mandatory candidate packet will be held Monday – Friday, 8:00 am to 4:30 pm. All candidates wishing to take the written examination must pre-register and obtain the mandatory candidate packet in person. No registrations will be accepted after 4:30 pm on Friday, October 12, 2007. No walk-ups or registrations will be permitted at the written examination.

For more information regarding the hiring process, additional physical and educational requirements, as well as successfully completing the mandatory "Candidate Physical Ability Test (CPAT)" prior to being allowed to take the written examination, please review the Village of Wheeling web page at: <http://www.vi.wheeling.il.us/Services/Fire/FirefighterParamedicEmploymentOpp.htm>.

Feral Feline Project in Wheeling

Attention Wheeling Residents! Is your household feeding stray or feral cats? Is the population getting bigger every year? Let us help you. We are a new non-profit organization named the Feral Feline Project. We are dedicated to humanely reducing the number of feral and stray cats. Millions of cats are euthanized each year because they are un-adoptable at shelters. Trap-Neuter-Return (TNR) is a safe and humane way of limiting the litters of kittens born in the wild and reducing the population of feral cats. We can rent safe humane traps to you; the traps are set in the feeding area. Once the cats are in the traps they are then brought to a participating local veterinarian to be spayed/neutered and vaccinated, then returned to their colony. This program is more beneficial because removal of these cats causes the vacuum effect. Stray and feral cats that have not been spayed/neutered or vaccinated will take over this area and repopulate the colony. Please contact us for more information (847) 800-0095 or email us at feralfelineproject@gmail.com

100% of all donations are put toward the TNR program.

Feral Feline Project
PO Box 1
Wheeling, IL 60090

Floods are no Myth; Be Prepared for the Unexpected

Discounts on homeowner flood insurance premiums are just one of many benefits residents enjoy as a result of Wheeling's proactive approach to flood hazard damage reduction. A 25-year member of the National Flood Insurance Program (NFIP), Wheeling has joined a national effort to minimize property damage in cases of flooding and provide affordable flood insurance to all homeowners, whether or not they are located in or near a flood plain. As part of its NFIP commitment, the Village provides a range of public information on flooding potential, prevention, safety, and other issues. For more information about the National Flood Insurance Program and flood insurance, call 1-800-427-4661. Copies of the recently revised Flood Insurance Rate Maps (FIRMs) can be reviewed at the Engineering and Community Development Departments as well as the Indian Trails Public Library.

LOCAL FLOOD HAZARD POTENTIAL

The Village's proximity to waterways such as the Des Plaines River, Buffalo Creek and McDonald Creek tributaries adds scenic charm to historic Wheeling. Unfortunately, those same waterways raise the hazard of flooding during heavy rains. Standard homeowners insurance does not cover flooding. Through the 1960s, private insurance company rates on flood insurance were prohibitively high. "It was a real problem for homeowners," said Dan Ozanich, Director of Community Development. "The exorbitant prices made it almost impossible to carry flood insurance." The NFIP, formed in 1968, is designed to subsidize the cost of flood insurance to member communities, qualify them to receive disaster relief and establish minimum national standards to reduce flood losses.

HIGH CRS RATING

One of eight inaugural NFIP communities in Illinois, Wheeling designed programs to exceed minimum standards and optimize benefits to Village residents. In 1992, the NFIP implemented the Community Rating System (CRS) to reward efforts of communities that go above and beyond the basic requirements. Since the inception of the CRS, the Village of Wheeling was rated a Class 8. Effective May 1, 2007, the rating has been upgraded to Class 7, which now provides a 15 percent discount on flood insurance policies for properties located within the special flood hazard area. Policies issued for properties outside the special flood hazard area continue to receive a 5 percent discount. The Village of Wheeling continues to be proactive in preventative initiatives, including:

Stream maintenance – The Village regularly inspects water ways to ensure they are clear of debris and potential obstructions.

Regulating new construction – New buildings in the flood zone must meet requirements for elevation and flood-proofing. Village planners ensure that the new developments don't raise flood risk for neighbors in the community.

Keeping residents informed of flood risk and how to minimize impact.

"Flooding is obviously not an area the Village wants to highlight, but our residents need to know how to prepare for a

flood," Ozanich said. "Tools such as this newsletter enable us to keep residents informed in the event of flooding."

DEVELOPMENT REGULATED

Development of any type within special flood hazard areas is strictly regulated. In order to construct a building or addition, perform any grading or fill any other type of construction in these areas, an individual must obtain a special 'floodplain development permit.' This permit is issued in conjunction with other construction permits to assure that the new construction will not be susceptible to flood damage or cause increased flood damage potential to neighboring properties. Flood plain development regulations can be found on the Village website at www.vi.wheeling.il.us in Title 22 of the Municipal Code which can be found under Reference Desk on the Home Page or by contacting 459-2620 or 459-2985.

With flooding a possibility, especially during the summer storm season, preparation is the best defense. Safeguarding people, protecting buildings and purchasing flood insurance are keys to defending against floods.

PROTECT YOUR PROPERTY

To flood-proof a structure, start by elevating or relocating electrical panel boxes, furnaces, water heaters and washer/dryers to areas least likely to be flooded. Install basement floor drains and interior and exterior backwater valves. Consider erecting interior flood walls around utilities. Move essential items and furniture to the upper floors of your home if flooding is likely. Keep materials such as sandbags, plywood, plastic sheeting and lumber handy for emergency waterproofing. More Flood Protection Information is available from FEMA through a link from the Home Page of the Village of Wheeling website at www.vi.wheeling.il.us. Information is also available for review at the Indian Trails Public Library.

PERSONAL SAFETY

During periods of high water, stay out of the basement where breaker boxes and electrical wiring present the risk of shock. If you know high water is imminent, shut off the electricity, gas and water. Keep your family together and make sure everyone has identification. Move everyone, including pets, to high ground. Rescue crews cannot reach you once the water becomes two-feet deep. Don't drive across flooded roads where your vehicle could stall. Flowing water above your knees can generate dangerous currents. Avoid walking through it.

VILLAGE MONITORS RISING WATER LEVELS

When heavy rains strike, the Village monitors rising water levels with elevation gauges strategically located in three locations around town. Comparing data with historic records, the Village can predict areas of potential flooding. Police and Fire Department staff are mobilized to notify people in affected areas. Information on road closures is submitted to traffic departments of radio stations throughout the Chicago area.

Call Community Development @ 459-2620 or the Engineering Department @ 459-2985 if you think you might live in a special flood risk area.

NEWS FROM THE CLERK'S OFFICE

Meet your Village Clerk Elaine E. Simpson

Elaine, our Village Clerk, is an elected official now serving her 3rd term in office. She is dedicated to her position as Clerk which includes the following duties: The clerk is the keeper of the records and works closely with the Village President by making sure official documents get signed properly and keeps the President informed of up coming meetings. She is in charge of taking the minutes of the meetings and recording them for approval. She is in charge of meeting attendance records, and records the vote tally of the Board of Trustee's. The Clerk administers the oath of office to elected officials, new Police Officers, Firefighters, new or reappointed commissioners.

Besides her duties as Clerk, Elaine continues to serve the community as a very active member of the Wheeling Historical Society and has been their president for a number of years. Also, a member of the Wheeling Garden Club and was on their board, and a member of the Red Hatitute Society, besides being a wife, mother, grandmother, and a full time office manager for a local company. The Simpson's have lived in Wheeling for twenty-one years.

Deputy Clerk Christine Brady

Christine, our Deputy Clerk is a full time employee of the village, and is Elaine's assistant. As Deputy Clerk she processes and distributes documents for the Village Clerk. In Elaine's absence, she can administer oaths of office, fill in at meetings, and sign important documents. She also is in charge of developing the agenda of business to be discussed or acted on at the Board meetings. She also helps with commission applications and handles business licenses.

Christine has lived in Wheeling for forty years and has been a member of the Wheeling Garden Club for ten years and has served on their board for seven. She is also a member of the Wheeling Red Hattitude Society and the Wheeling Historical Society. Plus she is a wife and mother.

ON TO LOCAL INFORMATION:

National Night Out took place on Tuesday, August 7th. The neighborhoods that participated had a great time. National Night Out is a great way to get to know your neighbors; if your neighborhood did not participate this year you should consider taking part next year.

3rd ANNUAL ILLINOIS FIRE SAFETY ALLIANCE BURN CAMP FUND RAISER will be held in the parking lot of Market Square SEPTEMBER 8, 2007 from 11:00 a.m. to 5:00 p.m. This is a pig roast, all you can eat.

Cost of the ticket is \$10.00, which gives you a free drink and the food. Children under the age of 12 eat free. There will be raffles, kids games and entertainment. All proceeds go to the charity.

Any monies raised will provide for a child who is a burn survivor to share with other children having common experiences while being able to play and not feel self conscious about what others may be thinking of their scars. Plus their families never incur any expense. Please come and have fun while helping these children.

REMINDER That schools will be opening and everyone should be careful driving. Remember to slow down when children are present.

District 21& 23 First Day is August 21

District 214 First Day is August 22

HALLOWEEN Trick and Treat will be on October 31st from 3:00 till 7:00 p.m. Make sure the porch light is on so that children know they can come to your door for treats.

The Wheeling Historical Society has reprinted "Wheeling Through the Years". If you are interested in a copy please call Elaine at 847-541-8692. The cost is \$25.00.

YOU'RE INVITED

WHEELING COMMUNITY OPEN HOUSE/HEALTH FAIR

Saturday, October 6th, 2007

10 AM until 3 PM

Wheeling Park District Community Recreation Center
333 W. Dundee Road, Wheeling, IL

- **Health & Fitness Information**
- **Blood Pressure Screening**
- **Massages**
- **Spinal Screenings**
- **Health Screenings**
- **Fire Prevention**
- **Smoking Cessation Information**
- **Acupuncture**
- **Living Will Workshops**
- **Refreshments**

Representatives from area businesses and the state, county, township and village organizations will provide information on their services, and much, much more.

This event is co-sponsored by the
Village of Wheeling and Wheeling Park District

Pavilion Senior Center * 199 N. First St. * 847-459-2670

The Pavilion Senior Center in Wheeling announces the following programs to be offered to area senior citizens. Anyone 55-years or older is welcome to join the activities or volunteer services to assist or share talents with others.

Annual Rummage Sale

Friday September 14

Saturday September 15 9AM – 2 PM

Our annual Rummage Sale will be held in the multi-purpose room of Pavilion. There will be a wide variety of gently used merchandise, small household appliances, knick knacks, housewares, accessories, paintings, and toys. Come and find a treasure at a very reasonable price.

SeniorNet Computer Classes

Next session will begin in October. Classes are held at Pavilion. Each class meets twice a week for four weeks. Cost - \$35. Classes for Session 5 are Basic, Intro, Internet and Email, Windows, Spreadsheet/Database, Digital Photography, and Seminars. A registration form is available at the front desk. Call 847-459-2666 ext 4131 for information.

Final Movie Nite

Wednesday, September 12 6 PM

Join us for the final movie nite of the year and enjoy the movie and lite dinner. We will be showing “Little Miss Sunshine”, the story of a seven-year-old and her desire for the beauty pageant crown and how it affects her dysfunctional family. Pre-registration of \$3 for a lite supper is required.

Afternoon Mystery Movie

Tuesday, October 9 1:00 PM

Our mystery movie returns in October. Join us for a free movie and snacks. If you don't like surprises, you will find clues to the title of the movie posted at Pavilion.

Senior Commission Presentation

“Don't Let Osteoarthritis of the Knee Become a Pain.”

Wednesday, September 19 at 7 PM

This annual health information event is sponsored by the Senior Commission and is open to the community. It will be held at Pavilion and there is no registration required.

New Programs for this Fall

In cooperation with Harper College and the Wheeling Park District, Pavilion is pleased to present two exceptional programs. “Fall Starry, Starry Night”, an exploration of the fall skies through lecture and telescope; and, “Six Drinks that Shaped History”, a lecture on the six beverages that have had a surprising influence on the course of history. These classes will be held at the Wheeling Park District, 333 W. Dundee. Sign up forms are available at Pavilion or the Park District.

Fall Starry, Starry Night

Thursday, September 6 and 27

7-10 pm

Fee \$20

Six Drinks that Shaped History

Tuesday, October 30

Tuesday, November 6 & 13

10 am-noon

Fee \$15

RTA Reduced Rate Pass

September 18 11 am – 1 pm

The RTA will be at Pavilion to issue seniors 65 and older passes for reduced rates (approximately half the full fare) on your CTA buses and rapid transit, Pace buses and Metra trains. Proof of age (State ID, driver's license, passport, other official government document) is required. ID picture will be taken at no charge.

Health Corner ...brought to you by the Wheeling Board of Health

Submitted by Commissioner Danene Coroneos-Shannon

October is National Breast Cancer Awareness Month

Cancer continues to be a number one killer in the U.S. Breast cancer is the most common cancer in women for any race, ethnicity. Breast cancer is the most common cause of death in Hispanic women. It is the second most common cause of cancer deaths in white, black, Asian/Pacific Islander, and American Indian/Alaska Native Women. Pink is the color associated with breast cancer. In 2003 (the most recent year that numbers are available),

- 181,646 women and 1,826 men were diagnosed with breast cancer
- 41,619 women and 379 men died from breast cancer

Breast cancer may occur in men. Men at any age may develop breast cancer, but it is usually detected (found) in men between 60 and 70 years of age. Male breast cancer makes up less than 1% of all cases of breast cancer. Generally breast cancer in its early stages is not associated with pain. Here are several symptoms of breast cancer that most individuals do not know:

- feels warm or hot to the touch
- itchiness
- no swelling during the menstrual cycle or a sudden unexplained swelling
- blotchy or red coloration
- swelling under the arms and sometimes in the neck

The National Breast Cancer Foundation (2007) suggests early prevention plan of:

- Clinical breast examinations every three years from ages 20-39, then every year thereafter.
- Monthly breast self-examinations beginning at age 20. Look for any changes in your breasts.
- Baseline mammogram by the age of 40.
- Mammogram every one to two years for women 40-49, depending on previous findings.
- Mammogram every year for women 50 and older.
- A personal calendar to record your self-exams, mammograms, and doctor appointments.
- A low-fat diet, regular exercise, and no smoking or drinking.

References: National Breast Cancer Foundation. (2007). National Cancer Institute. (2007). U.S. Cancer Statistics Working Group.

Village of Wheeling Ends Year with a Surplus

The Village of Wheeling is proud to announce that we ended fiscal year 2006 with a nearly \$2 million surplus in the General Fund. Several factors contributed to the surplus in this year's fund including increases in sales, income, and use taxes.

2006 saw State sales tax revenue increase by 11 percent to \$569,000. Local sales tax revenues also saw an increase with a total of \$10.4 million being collected compared to last year's \$7.7 million. Additionally, State income tax revenue increased 14 percent with a total of \$256,000 collected. The special census conducted in 2006 also allowed the Village to receive an additional \$256,075 in income tax after revealing that the Village has 4,059 more residents since the last census.

The Westin Chicago North Shore, which opened doors several months early, also helped contribute revenues to put our budget at a surplus. The Westin provided the Village with nearly \$700,000 in revenues from food and beverage taxes, building permits, engineering, and inspection fees.

"This is truly good news for the Village", said Mark Rooney, Village Manager.

Wheeling Community Blood Drive

A very successful Wheeling Community Blood Drive was held on July 11, 2007. 47 Village residents and employees attended and 41 units of blood were collected. Those 41 pints of blood will help save 123 lives.

Special thanks to our local restaurants for their generous support. Hackney's, Original Granny's, Tuscany and Bob Chinn's, Wa-Pa-Ghetti's Pizza, Claim Jumper Restaurant and Pita Inn.

The next Wheeling Blood Drive is scheduled for **Wednesday, November 14th.**
Please join us!

ATTEND PUBLIC MEETINGS

Residents are invited to attend public meetings of Village Boards and Commissions. Most meet in the Village Hall Councilroom unless otherwise noted here.

Regularly Scheduled Meetings

Village Board -
2nd & 4th Mondays of the month, 7:30 p.m.

Village Board Workshop-
3rd Monday of the month

Plan Commission -
2nd & 4th Thursdays of the month, 7 p.m.

Board of Health -
4th Tuesday, every other month, 7 p.m.

Human Rights Commission -
1st Tuesday of every fourth month, 7:15 p.m., south half of Village Hall lunchroom.
Jan. 2, May 1, Sept. 4

Senior Citizens Commission -
3rd Monday of the month, 10 a.m., south half of Village Hall lunchroom

Fire and Police Commission -
3rd Wednesday of the Month, 2 p.m., Fire Department Training Room

Chicago Executive Airport-
3rd Wednesday each month, 6:30 p.m., Airport Offices, 1020 S. Plant Road.

Beat Meetings -
East Meeting will be the 2nd Wednesday of each month.
West Meeting will be the 4th Wednesday of each month.

Fall Safety Tips

The children are back in school, the days are getting shorter, and the leaves are changing colors – fall is on its way! With these changes also come the risks associated with seasonal hazards. By taking some simple precautions, you and your family can safely enjoy the season!

- Please remember that children are back in school. Exercise increased caution when driving in school zones and in all residential neighborhoods. Parents, please emphasize the importance of walking to school and bus stops by use of the sidewalks and not walking in the streets.
- As the leaves begin to fall, please help in preventing subdivision flooding due to fall rains by raking the leaves off of the storm sewer manhole covers. To minimize this problem, do not rake your leaves into the street! Excess leaves can build-up on storm sewer manholes and eventually plug or block these manholes during normal fall rains. This can cause storm water to back-up onto your property and may cause localized flooding.
- When children are out Trick-or-Treating, please make sure their costumes do not block their vision and their costumes are made from fire-resistant materials. Remind your children to not eat any treats, until you have had a chance to personally inspect each one. If in doubt, throw it out!
- Burning leaves and landscape waste is strictly prohibited in the Village of Wheeling. Burning leaves can spread fire to your home or garage, creates environmental pollution, and makes it hard for residents with respiratory diseases to breathe. The last scheduled pickup of landscape waste (including leaves) is the week of November 26th.
- When putting away the lawnmower, hedge trimmers, and weed wacker for the season or preparing your snow blower for the pending arrival of winter, do not pour old gasoline down the storm sewers! It is very dangerous and potentially lethal to you, your family, your neighbors, as well as the members of the Public Works Department who maintain the sewers.
- Have your furnace or boiler professionally serviced. It will save you money by running more efficient, will most likely not breakdown when its much colder during the winter, and is less likely to cause your home to catch fire or for Carbon Monoxide (CO) to leak into your home. Be sure to keep all combustibles a minimum of 30 inches away from your furnace, boiler, and water heater.
- Two of the most important appliances in your home will be having a “birthday” on Sunday, November 4, 2007. Due to new Federal Daylight Savings Act, the first Sunday in November (i.e. November 4, 2007) will be when everyone in the country will “roll-back” their clocks one (1) hour. When you change your clocks, please celebrate the moment by giving your smoke detectors and your Carbon Monoxide (CO) detectors presents – new batteries! Every 83 seconds, a fire in a residential dwelling occurs in the United States. Annually, more than 3,600 people are killed and another 18,000 people are injured due to residential fires. Smoke detectors increase the chances of you and your family escaping a fire in your home by more than 50%. CO is an odorless, tasteless, and invisible gas caused by the combustion of natural gas (ex. furnace, boiler, stove, oven, etc.) and/or wood in your home (ex. fireplace). CO is the leading cause of accidental poisoning in the United States with more than 300 people killed annually and another 9,000 people requiring emergency medical treatment. Please show your love and respect for your smoke detectors and CO detectors by giving them the gift of new batteries on their “birthday” this fall.

For more home fire safety tips, please visit these web pages: <http://www.usfa.dhs.gov/citizens/index.shtm>
