

Manufacturing Incentives Breakfast

The Alliance for Illinois Manufacturing is hosting a 'Found Money Seminar.'

In 2012, the Alliance for Illinois Manufacturing directly assisted over 150 companies to receive \$6.3 million in government grants and reimbursement programs. Technical assistance has resulted in millions of dollars in increased sales, government bids and low-cost loans.

A variety of business incentive grants and programs exist for small and medium-sized businesses at the federal, state, county, and local level. In the State of Illinois, dozens of organizations exist to promote and administer individual programs.

The Alliance for Illinois Manufacturing is the ONLY Non-Profit, Business Development Organization in the State that matches companies with ALL the available programs.

The Alliance will help guide companies through the complex processes of applying for these incentives.

The Alliance for Illinois Manufacturing has identified over 85 different grants and programs available to small and medium-sized businesses including:

- Employer Training Investment Program (ETIP)
- On The Job Training (OJT)
- Trade Adjustment Assistance (TAA)
- Work Opportunity Tax Credit (WOTC)
- R&D Tax Credit
- ISTEP
- Technical Assistance Centers and many more

For more information, please contact the Village of Wheeling's Economic Development Department at (847) 459-2605 or ed@wheelingil.gov.
