

## PROJECT REPORT

**Project Title:** FAP 343 - IL ROUTE 68 (DUNDEE ROAD) SECTION: 98-B OVER THE  
WHEELING DRAINAGE DITCH BRIDGE REPLACEMENT, WATER MAIN  
**Route:** FAP 343 (IL 68)  
**IDOT Section No.:** 98-B  
**IDOT Contract No.:** 60H20  
**Job No.:** C-91-583-09  
**Project:** F-0343/017  
**Wheeling Project No:** 08.1420.03

### PROJECT DESCRIPTION & LOCATION:

Water main relocation and replacement of the existing structure (SN 016-0525) carrying IL Route 68 (Dundee Rd.) over the Wheeling Drainage Ditch (a.k.a. Buffalo Creek) with a three-sided precast concrete structure 36' X 11', located on Dundee Rd. west of Wolf Rd. in Wheeling. Dundee Rd. will be reduced from four (4) lanes to two (2) lanes resulting in one lane of traffic in each direction throughout the duration of this project (**See pages 3 & 4 for lane closure for construction staging.**).

This work consists of removing the existing Dundee Road Bridge over Buffalo Creek, installing new widened bridge; relocate and replace the existing 8" cast iron water main with 12" ductile iron water main to avoid conflict with wider bridge. The new bridge will have five (5) 12' wide lanes (two westbound lanes, two eastbound lanes and one center median lane), 8' wide sidewalk in the south parkway and 10' wide Hot Mix Asphalt bicycle/pedestrian path in the north parkway.

### SCHEDULE

**IDOT Letting Date**..... **January 21, 2011**  
**Award Date** ..... **April 6, 2011**  
**Start Date** ..... **July, 2011**  
**Completion Date**..... **May, 2012**

### ESTIMATED COST

**Bid Amount** **\$2,179,786.13**

### CONTRACTOR

**Dunnet Bay Construction Company**  
115 N. Brandon Dr.  
Glendale Heights, IL 60139

### KEY PERSONNEL

**IDOT Region One Engineer**
