What's Popping for the Fourth?

The Wheeling Special Events Committee is putting the finishing touches on the annual Taste of Wheeling blowout and July 4th parade.

The Taste of Wheeling will be expanded this year to include such offerings as funnel cakes and Italian sausage in addition to the dozen or so restaurants ready to feed thousands of local residents.

Entertainment at the Taste will feature rock, Dixieland and traditional bands, stilt walkers, a magician and a disk jockey. A free moon walk, face painters and some surprises will keep the kids occupied.

The parade will be punctuated by three marching bands and numerous floats from local businesses and organizations. The traditional fireworks display this year will feature \$30,000 worth of skyrockets, Roman candles and bottle rockets.

"Our lineup of sponsors is growing," said Trustee Judy Abruscato who, along with members of the Special Events Committee, organizes the annual event. "But we would welcome more to help keep this celebration viable for the residents of Wheeling."

Trustee Abruscato also encouraged more entrants to participate in the parade. "And," she added, "we would welcome more nonprofit organizations to join the Taste."

A complete lineup and schedule of events will appear in the July-August issue of *Village Views*. For more information, call Trustee Abruscato at 847-541-8783 or 847-459-2666, extension 4107.

2002-2003 Budget in Balance

Increasing public safety; maintaining and improving the street, water and sewer infrastructure; and providing top-quality services are the three main priority areas established by the Board of Trustees in preparing the 2002-03 Village budget. The \$55.3 million budget, which is projected to be in balance, was developed with an eye toward controlling expenditures and maintaining the Village's fiscal health.

Several indicators provide evidence of Wheeling's financial strength. The rating agencies, Standard and Poor's and Fitch, have recognized Wheeling's financial health with a AA bond rating, one of the highest available to municipalities. In addition, the Village has sufficient reserves to meet three to six months of operating expenditures, and the level of outstanding general obligation debt is well under standards established for communities of similar size.

Where Does the Money Go?

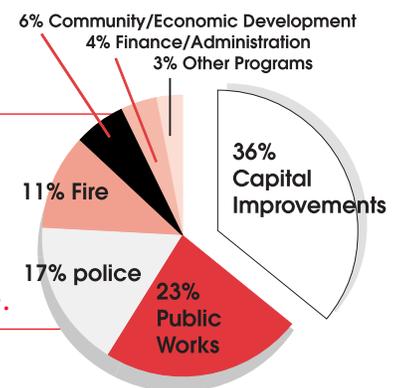

Mostly it goes to areas that directly affect the quality of life for every

village resident – streets, sewers, water delivery, police and fire protection. Also included are zoning and planning services, building inspection and plan review, economic development activities, snow plowing, traffic signal and street light maintenance, code enforcement, special events and a number of other services.

Of the total budget, 36 percent (\$20.1 million) goes to capital outlay and improvements. Some of the larger projects include:

Dunhurst water main replace-

2002-2003 Budget

Capital Improvements gets the biggest slice of the budget pie.

ment program;

Street pavement improvement;

Continued on page 2

2002-2003 Budget in Balance... *continued from page 1*

Sidewalk right of way acquisition and sidewalk improvements (See page 8.);

The acquisition and demolition of flood prone properties (reimbursed by state grant);

Design costs for the FY 2003-2004 water main replacement program;

Sanitary and storm sewer improvements;

Completion of the water meter replacement program;

Funding for an overhead plumbing loan program to reduce sewer backups.

The budget also provides for the hiring of three firefighter/paramedics and a police officer to provide additional protection for the Village's growing population.

Wheeling H.S. Seniors Learn About College Reality

Portrayals of college binge drinking and spring break excesses may be more myth than reality, according to the Wheeling Police Safe Communities Program. Armed with a survey of 33 colleges and universities, a team of professionals and students from Eastern Illinois University (EIU) took that message to the senior class at Wheeling High School in mid-March.

In a first-of-its-kind program in an Illinois high school, Safe Communities members from the Wheeling Police and Fire Departments arranged for a team of six EIU students to

Pilewski singled out annual media depictions of college students partying during spring break. "The reality is that 90 percent of all students work during spring break to help pay for their education," he said, "but that isn't the picture most people see."

"The reality is that 90 percent of all students work during spring break to help pay for their education, but that isn't the picture most people see."

present findings of the Illinois Core Baseline 2000 study that indicate stories of heavy drinking on campus are greatly exaggerated.

The study led to development of an EIU program called SONOR (for "social norms"), in which students provide entertainment and recreational activities as alternatives to risky behaviors. SONOR members discuss campus social norms, pointing out that incoming freshmen shouldn't base their actions on misleading media portrayals.

"Many high school seniors will move on to college campuses next year with a misperception about how college students really act," said Wheeling Safe Communities Coordinator Tom Pilewski. "These incoming college freshmen often get into trouble trying to live up to false expectations."

In fact, Pilewski said, 35 percent of survey respondents said they had fewer than six drinks a year. Another 42.7 percent reported drinking no more than once a week. Averaged across the students who responded, the survey shows that students in the study consume fewer than four drinks per week.

More than 8,000 Illinois college students participated in the survey by anonymously completing a lengthy questionnaire about many facets of their campus lives, including alcohol use. The survey found that binge drinking is the exception, not the norm, on campus. (Binge drinking is defined as four drinks at one sitting for women and five or more drinks at one sitting for men.)

More than 1.4 million students nationwide have participated in the study, with similar results reported from around the country.

The Wheeling Safe Communities Program is funded through a grant from the Illinois Department of Transportation, Div. of Traffic Safety.

Where Does the Money Come From?

Property Tax. The Village's share of the average property tax bill (about 23 percent) is among the lowest of all taxing agencies. Property tax revenues of \$7.6 million represent 14 percent of the total budget.

Sales Tax. Wheeling's share of the state sales tax, plus the local home-rule sales tax, generates \$7.1 million, or 21.6 percent of the budget.

Water Sales. The Village receives about \$5.6 million (10.1 percent) in water and sewer fees. This revenue pays for the cost of delivering water to residents and businesses, as well as the cost of operating and maintaining the water and sewer system.

State Income Tax. The State of Illinois pays the Village \$2.5 million (6.9 percent) as its share of income taxes collected from residents and businesses on a per-capita basis.

Telecommunications Tax on telephones, cell phones, fax machines, etc., provides \$2.2 million in revenue.

Residents with questions about the budget may call Village Hall, 847-459-2600. A copy of the budget will be available for review at the Indian Trails Public Library beginning in June.

Preparing Yourself for a Fire

By FIRE CHIEF KEITH MACISAAC

Fires happen. Yet few people ever think that a fire could dramatically affect them at home or work. It is impossible to prevent all fires, and when they do occur, people are shocked at how quickly flames can spread.

In 2001, the Fire Department responded to 63 structure fires. While most of these fires were small and caused minimal damage, several had devastating effects.

Planning ahead is critical to the survival of you, your family, or your business if a fire does occur. Here are some guidelines to minimize disaster in the event of a residential or workplace fire.

“Smoke detectors should be installed in every room except for the kitchen, bathroom, and garage.”

Maintain smoke detectors in your home. Change the batteries every year and replace the smoke detector every 10 years. Smoke detectors should be installed in every room except for the kitchen, bathroom, and garage.

Keep a fire extinguisher designed to handle multiple types of fires in the kitchen and garage. Install it in a pathway that leads away from the area it protects to an outside exit.

Develop an evacuation plan and practice it annually. In businesses, post the evacuation plan in hallways and areas where employees meet.

Maintain replacement insurance coverage for your building, as well as your belongings. Many homeowners and businesses opt for a fixed amount of insurance coverage. When a fire occurs, they discover that they were underinsured because property values had increased. Replacement coverage costs just nominally more than fixed amount coverage. People who rent also need insurance. While the property owner may insure the building, most lease arrangements do not cover replacement of personal belongings or relocation expenses.

Immediately call 9-1-1 if a fire occurs. The sooner you call, the sooner the Fire Department will arrive to assist you. In Wheeling, you can also call 9-1-1 from any cellular telephone.

Fight only those fires you are confident you can control. If you are not sure, do not attempt to fight the fire. Call 9-1-1 and evacuate the building. When fighting a fire, always have an escape route.

Evacuate the building and stay out. Do not go back in for personal belongings, pets, or company records.

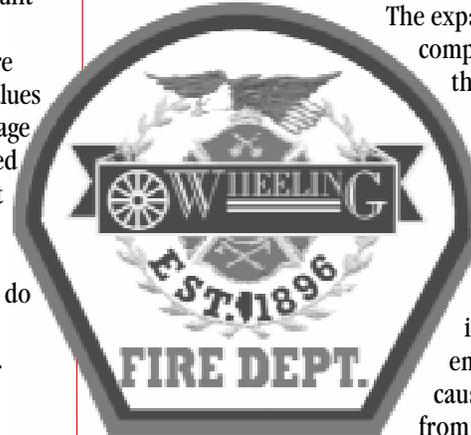

Have everyone meet at an assigned meeting place outside the building — preferably in front of the building near the street. Always plan an alternate meeting place in case the first one is blocked or downwind of the smoke.

Meet the firefighters upon their arrival. Let them know if everyone is accounted for and provide them with any information you may have about what is burning and where the fire started.

If you have any questions, please call the Fire Department at 847-459-2662.

Fire Department Expands

Wheeling Fire Department has added three firefighter/paramedics to staff a new ambulance in the first phase of a three-year expansion.

The expansion, when completed, will raise the total emergency personnel in the department to 51 from 42.

“Recent growth in the community and an increase in medical emergency calls has caused paramedics from other departments to fill the gap when our existing ambulances were on calls,” said Fire Chief Keith MacIsaac. “Additionally, future developments will be of greater density, and we need to be prepared.”

New Firefighters Include:

- ▶ John Bielik
- ▶ Brett Oftedahl
- ▶ Matt Pierce

The Board of Trustees included money in the general fund to pay for the expansion, MacIsaac said.

The newest firefighter/paramedics include John Bielik, 30, of Arlington Heights, who joins the Wheeling Fire Department after 10 years as a certified firefighter in Prospect Heights.

Brett Oftedahl, also 30, previously had been a certified firefighter/paramedic in Tinley Park.

Matt Pierce, 27, is from Chicago. He had served with the U.S. Navy before accepting his new position in Wheeling.

The second group of three personnel will be hired starting in May, when Wheeling’s new fiscal year begins. The final three will be added later.

This marks the first expansion of the department in 10 years, according to MacIsaac. In addition to the ambulance, personnel also will help staff the department’s ladder tower truck. All emergency personnel in the Wheeling Fire Department are cross-trained as both firefighters and paramedics.

Community Input Sought for Wheeling Comprehensive Plan

How would you like to see the Village of Wheeling develop over the next 10-20 years?

How would you like to see the Village of Wheeling develop over the next 10-20 years?

That will be the only agenda item at a public forum to be conducted by the Plan Commission on June 5. The meeting will begin at 7 p.m. in the Village Hall Councilroom (255 W. Dundee Rd.).

The commission, which has been working since the first of the year to update the Village's comprehensive plan, is seeking input from both long-time residents and newer arrivals, commercial and industrial organizations, community groups and others interested in the Village's future.

Issues to Consider

A variety of issues are under consideration, including:

- Land-use patterns
- Development objectives
- The possible location of a proposed town center

Improving the commercial corridors along Dundee Rd. and Milwaukee Ave.

"This meeting,

along with professional guidance from the planning firm Camiros," said Plan Commission Chair Ken Brady, "will help us craft a vision for the future by highlighting Wheeling's strengths, opportunities and challenges as articulated by the community residents."

Camiros, Ltd., a Chicago-based strategic planning firm with broad experience in comprehensive and economic planning, has laid the groundwork for the June 5 meeting. The company has conducted land-use analyses, identified trends and interviewed members of the Village's boards and commissions.

"What we do," said Jeanne Lindwall, Camiros principal consultant, "provides the 'why' for future activities by identifying what the community wants to see and making recommendations based on that feedback." The plan, when completed early next year, will

Continued on page 5

Before You Build, Be Sure to Get a Permit

It's spring, time to break out those home-improvement plans and call the contractor. But wait! A key element, a building permit, may be missing. Almost all construction – from new building construction to installation of fire alarms – requires a permit.

"The permit process protects residents and businesses by ensuring that construction meets modern building standards," said Building Director Dan Ozanich. "We are involved from the plan review through the final inspection on site to make sure that the project complies with the codes."

Most Village permits are issued by the Community Development Department, although the Public Works Department is responsible for engineering permits. The forms are available on the Village Web site (www.vi.wheeling.il.us | Reference Desk | Forms and Permits) and from the issuing departments.

Permits issued by the Community Development Department include those in the chart at right.

Home Improvements requiring Permits

House addition or remodeling	Lawn sprinkler system
Shed	Any electrical work
Garage	Any plumbing work
Central air conditioning	Roofing
Wood deck	Siding
Gazebo	Satellite dish (low-voltage electric permit needed)
Swimming pool/spa/hot tub	Window or door replacement if opening size will change
Fence/dog run	Furnace
Furnace	Sewer repair
Alarm system (low-voltage electric permit needed)	Concrete stoop replacement if change in size/location
Fireplace	Water heater installation
Screened porch	

Community Input Sought

Continued from page 4

guide future land use and form the basis for possible realignment of the Village's zoning ordinance.

Develop Economic Infrastructure

"We need this plan," said Economic Development Director Bill Whitmer, "to help us focus our efforts in developing the economic infrastructure of Wheeling. The outcome will tell us which sectors need the most attention and where to direct our resources."

Whitmer pointed to the strong commercial and industrial base that already exists in Wheeling as one area that has received attention in recent years.

"Those sectors make a significant contribution to the Village tax base," he said. "Without them, residential property taxes would undoubtedly be higher."

Plan Sets Direction

Whitmer said the emphasis areas of his department and the Economic Development Commission will reflect the policy suggested by the comprehensive plan.

"If it is the desire of the community for us to center on, say, residential development as a key element for economic growth, that's where we'll go."

For more information, contact Community Development at 847-459-2620.

Agencies Cooperate on Road-Construction Agreement

The Village of Wheeling, in a coordinated effort with Buffalo Grove, has developed a plan with two highway agencies to short-circuit traffic congestion in the area this construction season. The plan, pertaining to work scheduled for Dundee and Lake Cook Rds., calls for the delay of one project until traffic is flowing on four lanes on the other.

As a result of the interagency talks, the Illinois Department of Transportation (IDOT) agreed to defer repairs to Dundee Rd. between Milwaukee Ave. and Buffalo Grove Rd. until mid-July. By then it is anticipated bridge work on Lake-Cook Rd. over the Canadian National Railway will be sufficiently completed to allow for traffic flow over two lanes in each direction. Originally, the Lake Cook project would have run simultaneously with the repaving of Dundee Rd.

Once construction begins on Dundee Rd., it is suggested that residents consider Hintz and Palatine Rds. as alternate routes (see map).

Construction on other portions of Dundee Rd., east of Milwaukee and west of Buffalo Grove Rd., will proceed as planned.

Welcome New Businesses

ACOA Ltd. – Peter Stulberger, President, 125 S. Wheeling Rd., 847-784-0058, general contractor.

All Pro Technologies Inc. – Robert J. Bledsoe, resident, 140 Shepard Ave. #H, 847-229-9400, sales and installation of business telephone systems.

Mark Drug Medical Supply – Alan Sear, President, 548A W. Dundee Rd., 847-537-8500, medical supplies.

The Computer Group USA/DBA Web-Town.com – D. Scott Jacobs, President, 533 N. Wolf Rd., 847-808-0910, computers, programming, Internet.

Jamie's Home Day Care – 1400 Marcy Ln., 847-541-2490, day care center.

Manufacturers Warehouse Supply Ltd. – Patrick J. Bucaro, President, 1672 S. Wolf Rd., 847-459-3210, glue stick and sealant distributor.

Studio One Design Inc. – Julia Redwine, President, 9915 Capitol Dr., 847-229-7000, interior design service.

Target Store – James T. Hale, Sr. Vice President, 1400 W. Lake Cook Rd., 847-215-5051, retail store.

"Once construction begins on Dundee Rd., it is suggested that residents consider Hintz and Palatine Rds. as alternate routes."

Briefs and Announcements

Wheeling Woman Honored by Lt. Governor

Wheeling Resident Melissa Kolssak, who was Mrs. Illinois International 2001, was awarded the Woman of Achievement Award by Lt. Gov. Corinne Wood.

Village President Greg Klatecki recommended Kolssak for the award, pointing to her active support of the hospice ideal. Her involvement with the family business (Kolssak Funeral Home) gives her a unique perspective on the need for counseling and support for the families of seriously ill people. She also works with the Rainbow Hospice in Park Ridge.

Don't Discard; Recycle Old Electronics Gear

The Solid Waste Agency of Northern Cook County (SWANCC) is seeking volunteers to help staff the May 11 electronics recycling collection event cosponsored with Motorola. Volunteers will handle light duties (no lifting of electronic equipment) on either of two shifts – 8 a.m.-noon, or noon-4 p.m. Collection will take place from 9 a.m.-3 p.m. at Motorola's Schaumburg campus, 1301 E. Algonquin Rd. To volunteer and for more information, contact Mary Allen at 847-296-9205 or visit the SWANCC website: www.swancc.org.

Host a Student

The Center for Cultural Interchange (CCI) wants to locate a local family interested in hosting a foreign-exchange student. The Center represents students from 43 countries and would like to arrange for hosting a student from one of those countries.

"Exchange students enhance the community," said the Center's Marge Ryan. "CCI students learn about local government by meeting Village officials and participating in a community-service project." For information, call Ms. Ryan at 847-541-0816.

Be Careful Where You Park

Everyone uses Village sidewalks, whether in commercial or residential areas. Because sidewalks are used for so many activities – from walking and running to skateboarding, bicycle riding and even game playing – it's essential to keep them free of obstructions during normal waking hours (6 a.m.-10 p.m.). Parking vehicles or otherwise blocking the sidewalks during those hours can result in a citation costing \$20-\$35.

Brooms and Blooms to Spruce Up Village

The Wheeling Plan Commission is seeking residents who are interested in participating in the fifth annual Village Brooms and Blooms "clean-up and green-up" effort on May 11. From 9 a.m.-noon teams will fan out to pick up after the winter storms and remove debris from the roadways. Other volunteers will plant flowers at strategic locations around town. To volunteer and for more information, call Jon Sfondilis at 847-459-2682.

NW Suburbs to Mark Senior Celebration Day

Eight northwest suburbs, including Wheeling, will observe Senior Celebration Day at Randhurst Shopping Center on May 15. The event, scheduled for 9 a.m.-4 p.m., is designed to celebrate the contributions of older adults to the quality of life in local communities.

Continued on next page

Trash: Keep It in the Can

Garbage and trash can be inviting opportunities for nuisance animals and pests if it isn't contained tightly in a can. It could also create a nuisance for the neighbors if your trash is strewn around the neighborhood.

"We recommend bagging all refuse and stowing the bag in a can with a tight-fitting lid," said Health Officer Mike Boyle. "If the pests can't get in, your trash won't get out." Boyle also offered a reminder that garbage, recyclables and yard waste should not be placed curbside before 6 p.m. the night before collection is scheduled. All empty cans, totes and recycling bins should be removed from the parkway by the end of the collection day.

Going Once, Going Twice...

Bicycles, found and unclaimed property, and surplus Village equipment will go under the gavel at the Village's annual auction on May 11.

Items to be sold will be on view from 9-10 a.m. The bidding will begin at 10 a.m. and continue until all items are sold. The auction will be held behind the Village Police Department, 255 W. Dundee Rd. For information call 847-459-2646.

A full range of activities for seniors will include health screenings, legal issues for older adults, voter registration, hearing aid battery checks, identification photos, and fire and crime-prevention tips. Information about senior services will be available.

Also on the agenda will be hourly prize drawings, entertainment and complimentary refreshments for the first 500 attendees. For more information, call the Pavilion Senior Center at 847-459-2670.

Family Fun Faire June 1

The Pavilion Senior Center will hold its annual Family Fun Faire on June 1, from 9 a.m. until 3 p.m. This family event will feature clowns, a rummage sale, raffles and live and silent auctions. An arts-and-crafts sale and a bake sale also will be held. American Enterprise Bank, Corus Bank, Hoyne Savings Bank, Kenny Construction Co. and *The Daily Herald* are cosponsoring the Faire. The Senior Center is located at 199 N. First St.

Schedule of Regular Meetings

Village Board — Every Monday, 7:30 p.m.

Plan Commission — 2nd and 4th Thursdays of the month, 7 p.m.

Board of Health - 4th Tuesday, every other month, 7 p.m.

Human Rights Commission — 3rd Tuesday of the month, 7:15 p.m., south half of Village Hall lunchroom.

SPEAK OUT

Communicate with Wheeling elected officials and administrators. Your advice, suggestions, questions and opinions are appreciated and **will receive response**. Please complete this form, detach and return to: Village Manager, Village of Wheeling, 255 W. Dundee Road, Wheeling, IL 60090.

Fire and Police Commission — 3rd Tuesday of the month, 7 p.m., Fire Department training room.

Palwaukee Airport Commission — 3rd Wednesday each month, Committee of the Whole, 7 p.m., regular meeting, 8 p.m., Airport offices, 1020 South Plant Rd.

Economic Development Commission — 1st Tuesday each month, 8 a.m. , south half of Village Hall lunchroom.

Attend Public Meetings

Residents are invited to attend public meetings of Village boards and commissions. Most meet in the Village Hall Councilroom, unless otherwise noted below.

Board of Ethics — 3rd Thursday of January, April, July and October, 7 p.m., south half of Village Hall lunchroom.

Special Events Committee — 2nd Wednesday each month, 7:30 p.m., south half of Village Hall lunchroom.

Village Streets and Sidewalks Targeted for Construction

Residents in many neighborhoods will see infrastructure improvements this year. More than seven miles of roadway are scheduled for work that includes

resurfacing improvements, and spot concrete curb and gutter repairs. The streets affected include those listed below.

Sidewalk Removal & Replacement Program

For the fifth year, the Public Works Department will remove and replace defective, damaged, and potentially dangerous sidewalk squares. This year the program will focus on the Hollywood Ridge subdivision.
