

NOTICE:

Your Street Will Be Closing Tuesday, August 8th

****See page 2 of 2 for map of specific street closure dates****

WHY IS MY ROAD CLOSING?

Roads in your subdivision are having a pavement preservation treatment installed that will help significantly extend the life of asphalt streets. The benefits of properly maintained streets include higher property values, a smoother/safer ride, and reduced costs to the community by prolonging the need for replacement.

WHAT IF MY CAR IS PARKED ON A ROAD THAT IS CLOSED?

Work will commence at 7:00 AM. See the map on page 2 for specific details regarding closures. Please do not park within 50 feet of any street being worked on.

WHAT IF I DRIVE ON THE ROAD WHILE CLOSED?

You will be liable for damage to your vehicle and to repair the area of road you have driven on. In the event of a life threatening emergency, emergency vehicles will not be stopped from driving on the treated surface.

ALL OUTSIDE WATER MUST BE TURNED OFF

Water may damage the installation of the surface treatment. Please do not have sprinklers, hoses, etc... set to come on 24 hours before the road closure, during the road closure, or 24 hours after the road closure.

IF WEATHER CAUSES A HALT TO THE PROJECT, YOUR STREET MAY BE REQUIRED TO BE CLOSED ANOTHER DAY. IF THIS HAPPENS, YOU WILL RECEIVE ANOTHER NOTIFICATION.

HA5 Schedule

(Printed 8-07-17)

Stone Place and Anita Place are scheduled for HA5 mineral bond application on Tuesday, August 8th.

You will be notified at approximately 7am the morning of the treatment application.

- No parking on either side of the street will be allowed where work is being done.
- All vehicles need to be removed from the streets by 7am on the day that work is to be done.
- Driving on closed streets will not be allowed from 7am to approximately 7pm.
- Parking will be available on adjoining streets.

The closing of the street will expedite the application process. We appreciate your cooperation in this matter.

This schedule is weather permitting.
