Special Notice to Owners of Underground Lawn Sprinkler Systems Located in the Village

It is the property owner's responsibility to arrange for the repair and bear the cost of any lawn sprinkler system and/or piping within the public right-of-way that gets damaged by the contractor. It is recommended that any sprinkler system within the public right-of-way be relocated prior to curb removal. During the various phases of construction, we also request that no lawn sprinkling adjacent to these ongoing improvements takes place.
