Is this site subject to any Letters of Map Amendments or Revisions? YES NO

A certified topographical survey of the site upon which the limits of the floodway and/or flood fringe are clearly indicated and an Engineering Site Development Plan must be submitted and attached to this permit application.

FLOOD PROTECTION INFORMATION

For new buildings, additions or substantial improvements to existing buildings, complete the following applicable information.

_____ (N.G.V.D.) Base Flood Elevation of the site (from previous section).
 _____ (N.G.V.D.) Elevation of the lowest floor, including basement.
 _____ (N.G.V.D.) Elevation to which the building shall be dry floodproofed.

_____ % of Improvement = $\frac{\text{Value of Improvement or Addition}}{\text{Market Value of Existing Building}} \times 100$

(Market value to as listed on latest Cook County Real Estate Tax Bill. Copy of Tax Bill must be attached).

For non-substantial improvements the cumulative percent of improvement must be less than 50%.

The structural alteration to an existing building does / does not exceed 20% of the existing first floor area.

Supporting documents for cost of work to be completed shall be submitted.

For substantial improvements only, the Design Professional shall also certify the following:

I do hereby certify that I have designed the structure defined above to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood. I also certify that the project meets all the requirements of Title 22 of the Wheeling Municipal Code including but not limited to Foundation Protection and Compensatory Storage and that a **completed Elevation Certificate will be submitted upon completion of the project.**
